Education

Noida Institute of Engineering and Technology
Bachelor of Technology in Computer Science

Aug. 2024 – May 2028
Greater Noida, Uttar Pradesh

W.H. Smith Memorial School
ICSE/ISC

May 2023
Varanasi, Uttar Pradesh

Projects

PhishGuard: AI-Powered Gmail Phishing Scanner

March 2026

- Built a client-side Gmail phishing scanner using vanilla HTML, CSS, and JavaScript with Google OAuth 2.0 (read-only) integration, enabling real-time inbox threat analysis with zero data storage.
- Implemented a two-layer detection engine combining rule-based checks with Gemini AI deep analysis, generating a weighted risk score (0–100) for each email to identify phishing threats.
- Designed an editorial dark-themed UI with GSAP animations, custom cursor effects, and SVG noise grain overlay, delivering a premium user experience with smooth transitions and interactive elements.

NEXTRAIL: AI-Powered Decision Support for Indian Railways

July 2026

- Engineered a real-time decision-support system for Indian Railway Section Controllers, optimizing train sequencing and conflict resolution using Google OR-Tools CP-SAT constraint programming.
- Built a full-stack architecture with React 19, TypeScript, and Tailwind CSS frontend; Express.js and Socket.io backend; FastAPI optimization engine; PostgreSQL with TimescaleDB; and Redis caching.
- Implemented what-if simulation using SimPy discrete-event simulation, explainable AI with plain-language reasoning, full audit trail, and role-based access control with JWT authentication.

Technical Skills

Languages: Python, Java, JavaScript, TypeScript, Kotlin, C, HTML/CSS

Frontend Frameworks & Libraries: React.js, Vite, Tailwind CSS, GSAP, Framer Motion

Backend Frameworks & Libraries: Node.js, Express.js, FastAPI, Socket.io

Database & ORM: PostgreSQL, MySQL, MongoDB, Redis, TimescaleDB

DevOps & Cloud: Docker, Git, GitHub Actions

Developer Tools: VS Code, Postman, IntelliJ IDEA, PyCharm, Jupyter Notebook, Google Colab

Libraries & APIs: Google OR-Tools, SimPy, Pydantic, Google OAuth 2.0, Gemini AI API

Extracurricular

Active participant in hackathons, including Smart India Hackathon (SIH) 2025.

Competitive programmer with consistent problem-solving practice on LeetCode and other platforms.

Open-source contributor on GitHub with multiple public repositories and projects.

Student Fundraiser and Volunteer at Hemophilia Foundation and Helpage India Foundation.
